

Your bikes into the system — what I need from you

27 September 2026. I have been through your big fleet spreadsheet (*KOMMUNE og VIRKSOMHEDS OVERSIGT*). **About 926 bikes on 26 customer sheets can go straight into the system** — frame number, code, battery, charger, key, delivery date, department and EAN, for every customer. Before I load them I need your eye on a few things, below. *“Don’t know”* is a perfectly good answer — write on the printout, reply by mail, or we go through it on Tuesday.

What you get once they are in: Finn finds any bike on his phone by its code (*BKTM01*) or frame number, and a repair is attached to the real bike and the real customer. Every customer’s fleet is in one list (*Cykler → Importerede cykler*). After that come the service agreements and their yearly invoices — a separate letter.

A · Nine sheets — which customer do these bikes belong to? (146 bikes)

For every other sheet I found the customer in the system. For these I am not sure. Please correct my guess or write the right customer.

SHEET	BIKES	MY GUESS	YOUR ANSWER
WOLT	49	The sheet says <i>“Two Wheel Company – Wolt”</i> — are these Two Wheel Company’s bikes, lent to Wolt? Wolt is not a customer in the system.	
Helsingør Kommune	35	Helsingør Kommune – Hjemmeplejen	
Firmaer og Forsyninger	17	A mixed sheet: Dansk Erhverv (8), Forsyning Helsingør (1), Pilelygaard København (1), and 7 bikes with no customer written	
Bolig/Ejendoms Selskaber	13	A mixed sheet: ABG (1), CW Obel (2), DAB – Finsensvej 33 (1), FA09 – Fordelingsafd. (1), Forenede Service (1), Forsyning Helsingør (1), Lejrebo Haslev (1), and 5 with no customer written	
Novo	10	Novo Nordisk A/S	
Fredensborg Kommune	9	Fredensborg Kommune – CBME	
Kommunernes Landsforening	6	Not in the system — shall I create KL as a customer?	
Aleris Hjemmepleje	5	Not in the system — shall I create Aleris?	
Holbæk Kommune	2	Holbæk Hjemmepleje	

B • Five rules I will follow — unless you tell me otherwise

1. **Department unclear** → the bike goes on the customer (e.g. *Gladsaxe Kommune*), and we put it on the right department later — on site, or with you. Your sheet's department names often differ from the ones in e-conomic.
2. **A frame listed twice** (32 frames — list at the back) → I keep the row with the latest delivery date; the other row stays in the bike's history. Most look like a bike that moved from one customer to another. Correct any you know.
3. **The same battery or charger number on two bikes** (17 numbers — list at the back) → the number goes on the newest bike; the other gets a note. The system allows each number only once.
4. **Your words become the bike's status:** *stjålet* or *kan ikke findes* → lost or stolen (17 bikes); *udgået* → retired (8 bikes); everything else → in service with the customer.
5. **Old models** (V1–V8, Svajer V4 and V6) keep their model name as text. They do not need a template — templates are for bikes we build now.

C • Four questions

1. **Is this your latest list?** The newest delivery in it is from March 2026. Does the Trello export John is cleaning add anything — or replace it?
2. **Høje-Taastrup:** 48 bikes have "*SLUT22*" where the code usually is. Does that mean the agreement ended in 2022 — and are those bikes still with them?
3. **The month sheets** (Januar–December) look like your yearly service invoicing: each bike, the month it renews, years 2–4 ticked off, and a yearly price — **1 704 kr** is 142 kr × 12, and **2 184 kr** is the same plus 480 kr for GPS. Is that right? **What does a price of 0 mean** — free years, ended, or included in the sale?
4. **The letters at the start of every code** (*BK* for Ballerup Kommune, *GK* for Gladsaxe ...). The system will pre-fill them when a new bike is built for that customer, so the numbers carry on. This is what your sheet uses — please write the right letters where they differ:

CUSTOMER	YOUR SHEET USES	LETTERS FOR NEW BIKES
Allerød Kommune	ALK	
Ballerup Kommune	BALK, BK (BKTm, BKFH, BKBH), BTKM	
Gentofte Kommune	GE (GESP, GEHT, GEIS, GEUS), GKHT	
Gladsaxe Kommune	GK (GKHJ, GKSP, GKVI, GKSF, GKU)	
Herlev Kommune	HK (HKHP, HKGO, HKHG, HKTM, HKAC)	
Høje-Taastrup Kommune	HT (HTHP, HTPC)	
Hørsholm Kommune	HØ (HØHP, HØV)	
Fredensborg Kommune	FK	
Lyngby-Taarbæk Kommune	LTK	
Københavns Kommune	KBH	
Rigshospitalet	RIG	
DEAS	DEAS	
AH Cykler	AHKE	
Aleris Hjemmepleje	AH	

D • What I am leaving out

The eleven sheets with **private people's names, addresses and e-mails** — the citizen loan lists from 2013–15 (Albertslund, Ballerup, Herlev, Gentofte, Frederiksberg, Høje Tåstrup, Gladsaxe, Herlev Hospital, Lyngby-Taarbæk) and your private buyers (*Top Danmark*, *Private*). We do not need that personal data. If any of those bikes are still out and serviced by you, tell me which.

Appendix 1 • Frames listed twice (32)
